HOW TO USE THIS MAP

This Mobility Map offers basic information about the services and facilities available in the Regents Park area. The Mobility map uses symbol keys, and also colour keys to describe the area and information contained in the map.

There are also numbers allocated to each building, to refer to the list of Buildings and Services on the reverse side of the map. The buildings that have been included have been surveyed up to and including the entrance points. For the buildings deemed to have met specifications, the entrance has been included on the map. For all buildings, the main entrance has been included within the list of features found on the reverse side of the map.

To find a building that you are looking for, look up the name under the list of public Buildings and Services, identify the number and then turn the page to locate the building on the map. The colour coding of the map will identify whether the building meets the entrance specifications set by the Australian Standards.

Should you have any difficulties using the map, or require additional copies please contact Auburn City Council on 9735-1296.

DISCLAIMER

This Mobility Map has been compiled by the Auburn Council Access Committee.

Features have been identified in accordance with the Australian Standards: Design for Access and Mobility AS1428.1 - 1993, Supplement 1-1993 & AS1428.2 - 1992; Automatic Teller Machines - User Access AS3769 - 1990; Parking Facilities AS2890.1 - 1993 - Off-street parking.

Whilst all care has been taken, Council accepts no liability for any inconvenience, damages or injury whatsoever that may occur by reliance on this information.
